ADIA

Exciting updates await ADIA members! We're delighted to unveil a groundbreaking enhancement to our certification programs. You can now initiate your certification journey through our comprehensive e-learning platform, which allows you to learn from the comfort of your home. But that's not all—after completing the online segment, you can join us in Orlando, Florida at the upcoming World Congress, September 26-28, 2024.

In Orlando you will experience four hours of an engaging morning session, followed by four hours of hands-on practical learning in

the afternoon. At the ADIA, we are dedicated to elevating your learning journey, and this innovative hands-on approach underscores our commitment to ensuring you extract the maximum value from your education.

Join us in embracing the new direction of the ADIA as we evolve to meet your educational needs and deliver an unparalleled certification experience. Our mission is to optimize your education journey, and this exciting update marks a significant step towards achieving that goal.

Learning Objectives:

• **Mastering E-Learning Platforms:**

Navigate through the online certification modules efficiently to maximize learning.

• **Integrating Theoretical Knowledge:**

Engage actively in the immersive theory sessions held in Orlando, Florida.

• **Hands-On Practical Learning:**

Apply theoretical and hands-on exercises to enhance your knowledge and confidence in the dental practice.

These learning objectives aim to empower dental auxiliaries to excel in the certification programs' online and offline components, ensuring a well-rounded and comprehensive education experience.

ADIA E-Learning now available on our ADIA YouTube Channel:

<https://www.youtube.com/channel/UCOISg1CYIDD8KbUVgcgNOcQ>

These 4 webinars are the first step in obtaining an **ADIA Master's Program Certificate**. Complete the four webinars and then join us in Orlando for the hands-on part of the program.

2023 IJOI Manuscript Award Winners

In honor of Dr. McKinney

Ralph V. McKinney, Jr., DDS, PhD, was a professor and chairman of the Department of Oral Pathology, School of Dentistry, Medical College of Georgia; and the editor of Endosteal Dental Implants, published in 1991 by Mosby Yearbook. He was made an honorary life member of the International Congress of Oral Implantologists in recognition of his many years of support and guidance to the organization, as well as his many contributions to the advancement of oral implantology. Dr. McKinney was active in promoting our former journal, Implant Dentistry. Tragically, he died on November 17, 1991.

In honor of Dr. McKinney, an award was established. This award of \$3500 is given for the most outstanding research article published in IJOI. The first award was presented in 1994 for material that appeared in Implant Dentistry Volume 2, 1993.

2023 RALPH MCKINNEY OUTSTANDING MANUSCRIPT AWARD RECIPIENTS:

Mancini L, Galarraga-Vinueza ME, Barootchi S, Tavelli L. 3D surface defect map for characterising the buccolingual profile of peri-implant tissues. Int J Oral Implantol (Berl). 2023 May 9;16(2):105-113.

Leonardo Mancini, McKinney Winner

In honor of Dr. English

Charles English, a prosthodontist, was in the forefront of disseminating proven, learned, and current information regarding the prosthodontic aspects of implant dentistry. His article, "Biomechanical Concerns with Fixed Partial Dentures Involving Implants" (Implant Dentistry 1993;2:221-242) is considered to be a classic and is one that should be emulated by contributors to all journals. His conceptualization of "the anterior-posterior spread" in the planning and development

of implant prostheses for the totally edentulous arch was, and continues to be, a guideline for both clinicians and laboratory technicians.

In honor of Dr. English, an award was established. This award of \$3500 is given for the most significant clinical research published in IJOI. The first award was presented in 1994 for material that appeared in Implant Dentistry Volume 2, 1993.

2023 CHARLES ENGLISH OUTSTANDING MANUSCRIPT AWARD RECIPIENTS:

Simion M, Pistilli R, Vignudelli E, Pellegrino G, Barausse C, Bonifazi L, Roccoli L, Lezzi G, Felice P. Semi-occlusive CAD/CAM titanium mesh for guided bone regeneration: Preliminary clinical and histological results. Int J Oral Implantol (Berl). 2023 Nov 23;16(4):327-336.

IAOI

April 4, 2024
