Dear Colleagues

Welcome to the ICOI IMPLANT CURRICULUM, where innovation meets excellence, and your journey to ICOI Diplomate begins. As you delve into the details of our renowned program, allow me, as the director of the program, to extend a warm and enthusiastic greeting. Our Curriculum is not just an educational endeavor; it is a transformative experience, meticulously designed to elevate your practice and immerse you in the forefront of dental implantology.

The ICOI Implant Curriculum is designed for those who seek to transcend the ordinary and achieve the extraordinary. Whether you are a seasoned professional looking to refine your skills or a burgeoning talent eager to make your mark, our program offers a bespoke learning experience tailored to your expectations. In joining this elite cohort, you are not merely participating in a residency; you are becoming part of a legacy of excellence.

Dr. Ady Palti
ICOI Chairman

Our commitment to your success is unwavering, and we are dedicated to providing you with the tools, insights, and hands-on experience necessary to thrive in this dynamic field. Thank you for considering the ICOI Implant Curriculum. We are excited to embark on this journey with you, and we look forward to witnessing the remarkable impact you will undoubtedly make in the world of dental implant.

2025–2026 Schedule

3 Weekends 48 CEUs

Module 2

November 7–8, 2025

TMJ/Occlusion, Augmentation and Complications
featuring Drs. Ady Palti & Alvaro Ordonez

Module 3

January 9–10, 2026

Guided Bone Regeneration, Solutions for
Compromised Cases, Digital Workflow featuring
Drs. Isaac Tawil & Rick Ferguson

Module 4

March 6–7, 2026

All-on 4, Zygoma, Zirconia Implants
& Troubleshooting featuring Dr. Louie Al-Faraje

Location

The Curriculum will take place at the ICOI
Central Office:

1 Bridge Plaza N
Suite 950
Fort Lee, NJ 07024

Hotel Recommendation

Courtyard Marriott

3 Pembroke Place
Edgewater, NJ 07020

Located just 4 miles from the **ICOI Central Office**
and within walking distance to many local restaurants
and shops.

Speakers

Dr. Ady Palti

Dr. Ady Palti graduated from the University of Klausenburg, Romania, in 1980. He currently serves as a Professor at Columbia University.

Dr. Palti is the founder, former president, and honorary member of the German Society of Oral Implantology (DGOI). He has also held esteemed positions as a former president of the International Congress of Oral Implantologists (ICOI) and is currently the ICOI Chairman and a member of its Executive Committee.

With over 40 years of experience, Dr. Palti has lectured at numerous international congresses and published extensively in experimental and clinical research. His main areas of expertise include immediate implant placement and loading, bone quantity and density, bone augmentation materials, membranes, and 3D computer navigation.

Dr. Alvaro Ordonez

- Private Practice Orofacial Pain — TMD, Sleep Dentistry, Surgical and Restorative Aspects of Implant Dentistry, Miami, Florida
- Research Fellow TMD, Dental Occlusion, Orofacial Pain, Sleep Dentistry Tufts University Boston
- Implant Continuum University of Miami
- Former Clinical Assistant Professor Tufts, Nova Southeastern, University of Florida
- Director of Miami Implants Live & US Institute of Esthetic Implant Dentistry
- Past Chair of Clinical Innovations Academy of Osseointegration
- Past Co-Chair for Latin America ICOI
- Fellow, Master, Diplomate & Ambassador ICOI

Dr. Isaac Tawil

Dr. Tawil is the Clinical Director for Shining 3D, TBS Dental and Universal Shapers.

He is a MINEC Ambassador (Megagen International Network of Educators and Clinicians), a member of MINEC USA and sits on the Digital Dental USA Society board of directors, a Diplomat of the International Academy of Dental Implantology and the International Academy for Dental Facial Esthetics. He is a Fellow of the International Congress of Oral Implantology.

He is one of Dentistry Today's top 225 leaders in CE, a faculty member of the Osseodensification Academy, Brighter Way Educational Director (Phoenix, Arizona), and Digital Director of Guided Smile. Additionally, Dr Tawil is an Ambassador for the Slow Dentistry initiative and a Fellow of the Advanced Dental Implant Academy.

Dr. Rick Ferguson

Dr. Rick Ferguson has been involved in teaching implant dentistry for the last 30 years and has lectured in nationally and internationally on topics such as treatment planning, case selection, simple and complex surgical placement and restoration, advanced bone grafting and bone graft materials, use of Computed Tomography and surgical guides, Dr. Ferguson has been instrumental in bringing 3D printing technology to dentistry and developing digital workflows for implant and restorative dentistry as well as clear aligner orthodontic therapy.

Dr. Ferguson has developed and implemented implant training programs and hands on bone grafting courses including a Live Surgery Continuum at his Alma Mater the University of Florida and also at LSU which have been attended by thousands of dentists. He maintains a private practice with his wife Dr. Katherine Ferguson in Davie, FL emphasizing dental implants and implant repair.

Dr. Louie Al-Faraje

Dr. Louie Al-Faraje literally defined and authored the art of Oral Implantology. As a leading authority, he created many classifications and techniques, the standards by which oral implantology surgical procedures can be successfully performed. His name has become synonymous with results-oriented oral implantology treatments around the world.

A highly experienced clinician, educator and innovator, Dr. Louie Al-Faraje is continually advancing the protocols for oral implantology surgical treatments. His California Implant Institute in San Diego, California utilizes today's most innovative and effective clinical solutions to create and maintain optimal oral health using dental implants and bone grafting procedures.

Additionally, he is a board-certified, practicing oral implantologist in San Diego California, as well as

an author and educator, who presented hundreds of lectures and trained hundreds of dentists throughout the world.

Dr. Louie Al-Faraje received his medical education at Kiev Medical School/ faculty of Stomatology and followed by postdoctoral training at Loma Linda University in California.

He is the author of Surgical Complications in Oral Implantology published by Quintessence 2011, Oral Implantology Surgical Procedures Checklist Quintessence 2012, Surgical and Radiologic Anatomy for Oral Implantology Quintessence 2013 and Oral Implantology Review Quintessence 2022 and on the editorial board of the Journal of Oral Implantology (JOI).

ICOI Implant Curriculum Session 2

November 7–8, 2025

“Augmentation/Complications & TMJ/Occlusion”

Friday, November 7, 2025

8:00 AM–6:00 PM

Dr. Ady Palti

“Challenges and Solutions for Maximizing Implant Aesthetics”

Learning Objectives:

- Lateral ridge augmentation with particulate materials and membranes
- Bone splitting and Autogenous bone blocks
- Bone spreading techniques to improve bone density and for Close Sinus Elevation
- Different locations for bone harvesting procedures

12:30 PM–1:30 PM

Lunch

Saturday, November 8, 2025

8:00 AM–6:00 PM

Dr. Alvaro Ordonez

“What You Need for Your Implants to Survive Parafunctional Forces: From Theory to Practice”

Learning Objectives:

- Understand head, neck and maxillo mandibular mechanics
- Differential diagnosis made simple
- Basic but effective splint therapy for the implant patient

12:30 PM–1:30 PM

Lunch

ICOI Implant Curriculum Session 3

January 9–10, 2026

“Guided Bone Regeneration, Solutions for Compromised Cases, Digital Workflow”

Friday, January 9, 2026

8:00 AM – 6:00 PM

Dr. Isaac Tawil

“State-of-the-Art Digital Protocols — for Full Arch Implant Reconstruction”

Learning Objectives:

- Explore advancements and new tools for pre- and post-operative digital records, including intra-oral scanning (IOS), facial scanning, and CBCT
- Review guided surgical applications and the role of fiducial markers in enhancing accuracy
- Analyze the components and benefits of IOS and IPG technologies in digital workflows
- Understand the workflow for same-day surgical temporization and the 2-3 visit finalization process for complete digital full arch metal-free implant restorations

12:30 PM – 1:30 PM

Lunch

Saturday, January 10, 2026

8:00 AM – 6:00 PM

Dr. Rick Ferguson

“Digital Workflows and 3D Printing in Dental Implantology from Surgery to Prosthesis for All Case Types”

Learning Objectives:

- Understand the advantages of a digital workflow
- Define the Types of cases and which datasets are necessary for each case type
- Equipment and material considerations for data acquisition, planning an in-office manufacturing
- Understand how additive manufacturing can increase efficiency and quality through rapid prototyping

12:30 PM – 1:30 PM

Lunch

ICOI Implant Curriculum Session 4

March 6–7, 2026

“All-on 4, Zygoma, Zirconia Implants & Troubleshooting”

Friday & Saturday, March 6–7, 2026

8:00 AM–6:00 PM

Dr. Louie Al-Faraje

“Rehabilitation of the Advanced Resorbed Maxilla Using Zygomatic & Pterygoid Implants with Hands-On Training”

Learning Objectives:

- Relevant anatomy and its influence on maxillary classification for zygomatic implant placement as well as the risks, objectives, and bone preservation principles of the osteotomy (single vs double osteotomy)
- Planning the osteotomy, including types of zygomatic implant osteotomies (tunnel and channel osteotomies), preserving bone with the window osteotomy, and the drawbacks and advantages of maintaining the maxillary sinus lining
- Avoiding complications, including: orbital perforation, temporal fossa penetration, zygoma fracture, excessive bleeding, infra-orbital nerve disturbance, transcutaneous drilling, intracranial penetration, facial hematoma, labial laceration and paresthesia, cellulitis and flap dehiscence, infection, late soft tissue dehiscence, cellulitis, regular implant failure, peri-abutment inflammation, coronal gingival fistulae, coronal sinus fistulae, apical fistulae, oronasal or orosinus communication, late rhinosinusitis, bulky prosthesis, and fracture of prosthetic components
- Learn prosthetic rehabilitation and immediate loading of zygomatic implants

12:30 PM–1:30 PM
