FOR CONTINUING
EDUCATION

International Congress of Oral Implantologists (ICOI)
Nationally Approved PACE Program Provider for
FAGD/MAGD credit.
Approval does not imply acceptance by any
regulatory authority or AGD endorsement.
4/1/2024 to 3/31/2028
Provider ID# 217378

Learning Objectives

Bridging general practice and periodontics for improved treatment planning, soft-tissue management, and long-term implant success.

By the end of this virtual meeting, participants should be able to:

- Identify current evidence-based indications and contraindications for dental implant treatment in general and periodontal practice.
- Evaluate key diagnostic factors — bone volume, soft-tissue biotype, and risk profiles — to improve case selection and treatment planning.
- Differentiate between surgical and non-surgical approaches to peri-implantitis management and determine when referral is indicated.
- Apply predictable treatment workflows that improve implant longevity — including restorative planning, soft-tissue preservation, and maintenance protocols.
- Integrate simple, practical chairside techniques that increase efficiency and reduce complications in everyday implant dentistry.

Lecture Schedule

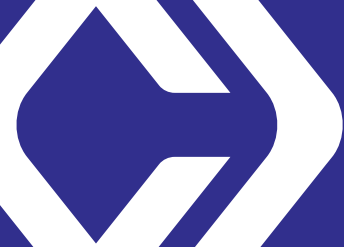

February 21, 2026
Saturday

9:00 AM – 10:30 AM	Dr. Dale Rosenbach Maximizing Surgical Success in Implant Dentistry
10:30 AM – 10:45 AM	Break
10:45 AM – 12:15 PM	Dr. Dmitriy Ivanov Digital Precision in the Aesthetic Zone: A Staged, Biologic Approach to Predictable Tissue Regeneration
12:15 PM – 12:45 PM	Lunch Break
12:45 – 2:15 PM	Dr. Jedediah Huss Concentrated Growth Factors - Bone Grafting Utilizing CGF/PRF
2:15 PM – 2:30 PM	Break
2:30 PM – 4:00 PM	Dr. Dean Licenblat Partial Extraction Therapy – Preservation is Better Than Regeneration

Please note:

This is a virtual meeting with all lectures presented in a pre-recorded format. For any questions, kindly email us, and a member of our team will respond.
